

IRISH CENSOR POPULAR WITH ALL WRITERS

(Correspondence Associated Press)

DUBLIN, June 24.—Seldom can a person burdened with the duties of an important censorship lay claim to any considerable degree of popularity, but Ireland possesses a press censor who is really popular even with the men whose writings he is compelled to blue-pencil and criticize. The Irish press censor is Lord Decies, well known in the United States, and all classes of Irish newspapermen appear to be agreed that he is the right man for the place.

Lord Decies' censorship office is located on two upper floors in a building on Grafton street, Dublin, above a barber shop and a billiard room. Irishmen hate ceremony and unnecessary formality and Lord Decies is not in the least pompous or ceremonious. He is always ready to meet and talk with the men whose "copy" he censors, and when the business of the moment is finished, he is ready to chat with them for a few minutes on the favorite Irish topics of sport and horses, on both of which subjects he is an expert.

The key to Lord Decies' success as a censor, however, is probably that he has succeeded in convincing all classes of Irishmen whether Sinn Féin or Orangemen, of his absolute impartiality and fairness to both sides. One of the best tributes to his popularity is that he is occasionally made the subject of newspaper jokes. He has posted on the walls of his office some of the extraordinary letters and clippings which have reached him. In several of them he is jocularly addressed as "His Royal Highness, the Lord High Executioner of Copy, Dublin."

Lady Decies, his wife, was Vivian Gould of New York.

ARMY NEWSPAPER IS PUBLISHED BY BOYS IN PALESTINE

(By Associated Press)

WITH BRITISH ARMIES IN PALESTINE, July 10.—The fifth issue of the Palestine News, published every Thursday at general headquarters, first echelon, at the price of one piastre or five cents, has just appeared. The copy is dated April 1, which is the date of the first issue, which is the same as March 22 in the Hebrew calendar, Nissan 22 in the Hebrew or Jumade V 22 in the Moslem.

Part of one page is devoted to chess problems and puzzles. There are two pages of "theatrical notes" and "sporting news," all dealing with activities in the Palestine area. The dramatic editor reviews six concerts and a regimental theatrical performance entitled "The Hint Who Took the Wrong Way."

Peculiarly appropriate to Palestine, the News carries a full page of announcements of church services, including the "Collegiate Church of St. George, Jerusalem," the "Hospice, Mount of Olives," and the "Church of the Convent of Marie Reparatrice," the latter located "at the junction of the Jaffa and Jerico roads, Jerusalem."

In the advertising columns, and particularly in the want ads, there is local color. An advertiser offers "any price in reason" for "a pair of Palestine crocodiles in good condition and uninjured."

ARE the PACKERS PROFITEERS?

Plain Facts About the Meat Business

The Federal Trade Commission in its recent report on war profits stated that the five large meat packers have been profiteering and that they have a monopoly of the market.

These conclusions, if fair and just, are matters of serious concern not only to those engaged in the meat packing business but to every citizen of our country.

The figures given on profits are misleading and the statement that the packers have a monopoly is unsupported by the facts.

The packers mentioned in the report stand ready to prove their profits reasonable and necessary.

The meat business is one of the largest American industries. Any citizen who would familiarize himself with its details must be prepared for large totals.

The report states that the aggregate profits of four large packers were \$140,000,000 for the three war years.

This sum is compared with \$19,000,000 as the average annual profit for the three years before the war, making it appear that the war profit was \$121,000,000 greater than the pre-war profit.

This compares a three-year profit with a one-year profit—a manifestly unfair method of comparison. It is not only misleading, but the Federal Trade Commission apparently has made a mistake in the figures themselves.

The aggregate three-year profit of \$140,000,000 was earned on sales of over four and a half billion dollars. It means about three cents on each dollar of sales or a mere fraction of a cent per pound of product.

Packers' profits are a negligible factor in prices of live stock and meats. No other large business is conducted upon such small margins of profit.

Furthermore—and this is very important—only a small portion of this profit has been paid in dividends. The balance has been put back into the businesses. It had to be, as you realize when you consider the problems the pack
